"I am delighted to host the 2020 Korean American Medical Association (KAMA) Convention in Seoul, South Korea. The theme of the 46th Annual Scientific Convention – **2020 Vision for**

Diversity, Innovation, Cure – reflects the meeting's focus on promoting diversity, particularly women in medicine, and encouraging international collaboration with physicians of South Korea for innovation and cure. I would also like to see increased participation by our medical students, residents, and fellows. They represent the future. They are the eventual leaders of our medical community, so having their involvement in KAMA is crucial, and mentoring them is a passion of mine. I hope to see everyone attend the 2020 KAMA convention in Seoul!"

*Mary E. Choi, MD
President, KAMA 2020*

ABOUT KAMA:

In 1974, KAMA was founded by physicians of Korean heritage in the U.S. KAMA has grown to nearly 18,000 members with representation in the AMA Specialty and Service Society (SSS). KAMA's legacy and future direction continue to reflect the success of Korean American physicians who have achieved academic and scientific prominence in medicine.

WHAT WE DO:

KAMA members are committed to providing mentorship and guidance to medical students through the Korean American Medical Student Association (KAMSA) and residents and fellows (KAMRAF). Our public service ranges from community outreach health fairs, education seminars, and global health outreach programs. KAMA also maintains strong collaboration with medical societies in South Korea such as the Korean Medical Association (KMA).
