### < About KAMA >

In 1974, KAMA was founded by physicians of Korean heritage in the USA. With representation in the AMA Specialty and Service Society (SSS), KAMA's legacy and future direction continue to reflect the success of Korean American physicians who have achieved academic and scientific prominence in medicine.

### < What We Do >

KAMA is committed to providing mentorship and guidance to medical students through the Korean American Medical Student Association (KAMSA) and residents and fellows (KAMRAF). Our public service ranges from community outreach health fairs, education seminars, and global health outreach programs. KAMA also maintains strong collaboration with medical societies in South Korea such as the Korean Medical Association (KMA).
